THE ANGELUS PIANO PLAYER.

For truly artistic rendition of music the Angelus is **absolutely** necessary.

WHY?

BECAUSE—The bass of the piano can be subdued independently of the treble.

BECAUSE—Ritards, accelerations and other modifications of time can be accomplished **instantly** and **easily**.

BECAUSE—No noise of air or rolling of music is audible.

BECAUSE—Any phrase or note can be accented, any theme can be played prominently, with a soft accompaniment.

The **Angelus alone** accomplishes the above results. It also plays waltzes, marches and the late popular music.

Call and we will gladly demonstrate its superiority.

OF COURSE every one knows I am no SANDOW, physically, but all are willing to admit my strength when it comes to the TAILORING question. It simply shows what SAYING THE RIGHT THING AND DOING WHAT YOU SAY does for a man. I'd like a word with the reader, personally—I know what YOU want: good clothes at the right price. Of course, they must be stylish. That's all I make.

But if I please you I'll probably be your Tailor—that's what I want. My new Spring line is all in, and oh, say, there are some swell novelties in it—fine for Easter. It won't be cold always you know. Why not get ready now? I'll be awfully busy a little later—in fact am now. \$30 to \$55. is about right for Spring clothes. I am showing a big variety of those "Good Business" suits for \$33.

Oh, What a Mask Some Women Wear

At 45 or even 50 years of age many a woman is at heart as young as she was at 25, but generally the age is unmistakably written upon her face; frequently it is exaggerated, making her appear even older than she really is.

Why not remove this hideous tell-tale mask of wrinkles, hollows, shrunken muscles, flabby flesh and wrinkled skin and again resume the appearance of youth that corresponds with the feelings?

If you would know how to accomplish this, write to

Rapid advancement has brought us from the primitive to the perfect artificial illuminant—Electricity, now used almost exclusively for lighting; also for power. This company is supplying it economically in homes and other buildings where the best at a reasonable price is desired—this theatre for example. Do you use it? You should. Real Irish Wit.

Hon. George R. Peck, of Chicago, so keenly appreciates a good joke that he tells the following on himself:

"When after a foreign trip I was being welcomed by some of my friends in Topeka, I wore a suit of clothes, made by a London tailor, that was uncomfortably tight in places. I expressed surprise that a loose fit in London should prove a tight fit in Topeka, whereupon an Irishman of the party exclaimed:

"'Mr. Peck, don't forget you're a bigger man in Topayka than you were in London.'"

Mr. Peck told a friend on Saturday last that "Orangeine" had wonderfully cured him of a most distressing cold, which had clung to him for many days past. He felt so sick in the morning that he could hardly stir, but was so well in the evening that he went to the theater, feeling better than for weeks, and attributed his recovery entirely to "Orangeine," which he had been taking as directed during the day.

From the Chicago Journal. Query On Headache Powders.

Often-asked Question as to their Good or Bad Effects is Answered for a Correspondent's Enlightenment.

A woman asks the following questions: "Are so-called headache powders harmful? Is it safe for persons with heart affections to use them?"

Nowadays there is no necessity for experiment or risk, as a prompt remedy for headache called "Orangeine" has come into general use through its wide-known results of quick relief and permanent benefit to the system.

The composition of "Orangeine" powders as published in every direction booklet includes in most delicate balance only the well-known remedies, nux vomica, podophyllin, acetanilid, bicarbonate of soda and caffeine, so delicately balanced as to leave no drug effect, but only the remedial effect desired, which is ascertained to be of far-reaching importance in the building up of the stomach, regulating the liver and strengthening the functional action to a normal degree, which means health.

MISS MARLOWE With Us Again in "Knighthood"

Engagement Limited to 2 Weeks, Beginning May 19

There was a very general demand for an extension of the engagement of Miss Julia Marlowe when she appeared at Power's Theatre earlier in the current season in her magnificent production "When Knighthood was In Flower." Previous contracts which demanded Miss Marlowe's appearance in a few of the leading cities of the middle west and south made it impossible for her managers to extend the time originally allotted to Chicago. But now that her tour which has been a veritable triumphal progress for both the play and player is drawing to a close, it has been found possible to arrange for a return engagement here. It will be in the nature of a series of farewell performances by Miss Marlowe in her role of the Princess Mary Tudor because after her forthcoming visit "When Knighthood Was in Flower" will be permanently dropped from her repertoire and she will enter upon the task of preparing for her next season's production. So many playgoers were disappointed in their intention of seeing Miss Marlowe when she was here a few months ago that the special return engagement will doubtless be a very welcome announcement.

It seems hardly necessary to speak here of the astonishingly unanimous verdict of praise which greeted the actress upon the occasion of her last appearance in this city. It was a verdict marked by the utmost enthusiasm and the charm of her Mary Tudor appealed with the same witchery and compellingness alike to the jaded playgoer and the most ingenious matinee girl.

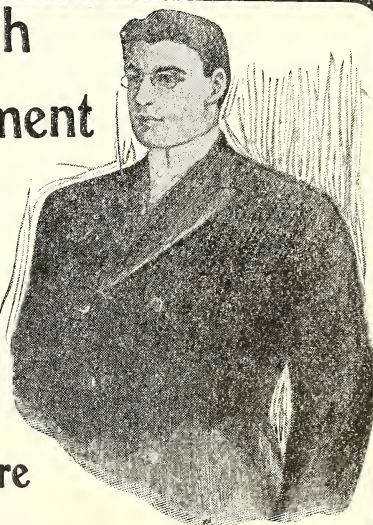

The series of farewell performances announced herewith will be limited to two weeks. The supporting company and the splendid mise-en-scene with which Miss Marlowe is surrounded, will of course be the same as were seen here so recently.

THE "LITTLE MAN."

I hate a little man. Not the man with a small body, but the man with small ideas. If you are going to be a rascal or thief, be a big rascal or a big thief. It's just as bad to hold up some one in an alley and rob him of a dollar as it is to dash into a bank in broad daylight and rob it of ten thousand dollars. It's bad enough to be a thief, but while you are about it, go in and get your picture in the paper next morning. While you are serving out your time in jail you can realize you made things hum for a while, anyhow.

The man or woman, however, who does good on a big scale is the one to whom I take off my hat. Such a person is worth more to the world than a thousand little folks who don't accomplish anything big.

At this moment the Omega Chemical Co. is doing the world as much good as any other agency you can mention. It is giving the world Omega Oil, and Omega Oil is stopping pains and aches everywhere. It is my duty to advertise Omega Oil, and I am putting my very heart into the work, because I know it is good work, and if there is a hereafter I'll get some credit for what I am doing now. There's more downright satisfaction in feeling that you are helping humanity than there is in mere riches.

CHILD'S PLAY.

It is dangerous "child's play" to neglect the care of children's teeth after the fifth year. To inculcate a habit of caring for the teeth daily, use a safe dentifrice which children like. Use SOZODONT. It is perfectly pure, being wholly free from acids, grit or other impurities, and is remarkable for its pleasing fragrance and taste. 25c and 75c.

Nine Hours Under Water.

Captain Louis Sorcho, the deep sea diver and submarine engineer, says: "After my long stay under water, when I broke my former world's record of 8 hours, 40 minutes by remaining under water 9 hours and 12 seconds, *without coming to the surface and without food or drink*, a lady gave me "Orangeine" powders, which promptly restored my normal condition. The remedial effect of 'Orangeine' is simply marvelous." This experience furnishes a supreme illustration of "Orangeine's" power to offset chill, fatigue and exposure, head off colds, "grip" and common ailments by normalizing physical action.

Cold in Chest

Omega Oil

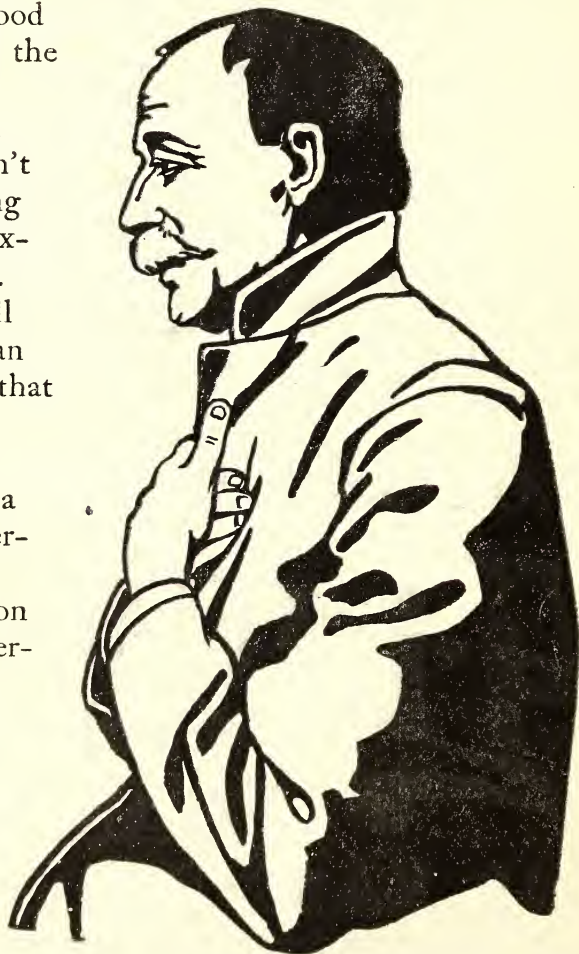

You hear a good deal of the great progress in medical science, but there hasn't been so much progress after all. The doctors have not been able to improve on many of the simple old remedies used during the last hundred years. Every mother knows that old-fashioned

sweet oil is a good thing to rub on the nose, throat and chest for a cold, and a doctor can't prescribe anything better or safer except Omega Oil.

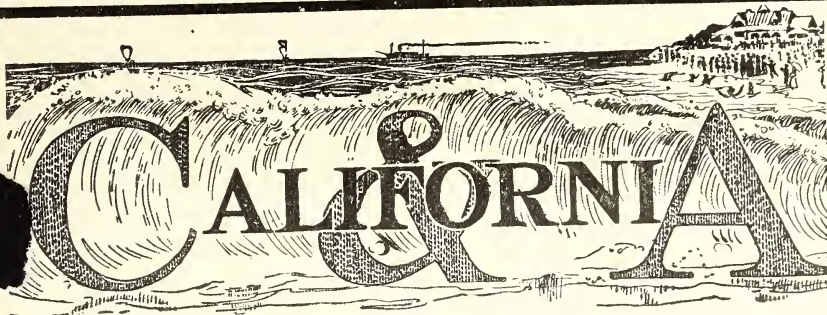

This Oil does all that sweet oil can do, and besides that it contains other ingredients that check and cure a cold in a wonderfully short time.

It can be used on children with perfect safety, as it does not blister.

A bottle in the house all the time may save a life or a doctor's bill.

Omega Oil is good for everything a liniment ought to be good for.

DURING MARCH AND APRIL

The Chicago & Alton Railway Co.

Invites you to accept this extraordinary ticket bargain and also the advantages of its through California service. Sleeping cars go through without change from Chicago to Los Angeles and San Francisco. There are two routes—one scenic, the other "True Southern."

Mr. Robert Somerville, General Agent Passenger Department, 101 Adams Street, Chicago, if called upon in person or by postal card, will gladly elaborate upon the foregoing. He deals in that direct way which is the result of experience in arranging transcontinental journeys. He has inducements to offer which are "worth while," and his courteous assistance does not end when tickets are bought. Specially selected tourist managers go through from Chicago to the Pacific coast, attending to the checking of baggage, pointing out scenery and places of interest, and giving the attention en route which makes the transcontinental trip comfortable and enjoyable. Let us place your name on our mailing list for future attention.
